

TD's Tips!

Travel and Transportation Skills

What can I do?

1. Ask your transition team to help you explore what kinds of transportation services best match you and your needs.
2. Travel with your family or transition team using different types of transportation (like cars, taxis, buses, trains, or planes). Decide on the best matches for you.
3. Learn safety tips and tricks for getting around in your community.
4. If using public transportation, practice keeping tickets or passes organized and safe.
5. Ask your family or transition team about how to participate in driving classes, how to get accommodations for driving, and how to get a driver's license.

Pro Tip!

Plan with your family or transition team and travel to somewhere specific that you want to go in your community using public transportation.

How about an ultimate challenge?

With your transition team, identify locations you would like to visit. Become aware of where they are or how far these places are from your school or home. Decide what type of transportation is best for you to reach those locations, and write down how much it would cost to get there.
