

TD's Tips!

Transition Fairs

What can I do?

1. Make a list with your transition team of what agencies, businesses, or organizations would be a great match for you.
2. Get your family members involved! Invite them to upcoming transition fairs.
3. Be open! Explore new information from agencies, organizations, and businesses.
4. Be ready to collect resources and contact information from agencies, organizations, and businesses. Build a strong relationship with the ones you are interested in.
5. Put upcoming transition fairs on your calendar. Ask your transition team to keep you updated for the time, date, and place so you don't miss them.

Pro Tip!

Work with your transition team and family to make a list of your questions and which professionals at the fair can answer them.

How about an ultimate challenge?

Form a scavenger hunt with your transition team to explore the transition fair. For example, can you find...

- Job training
- Post-secondary school support
- Independent living programs
